Orgelkids

Orgelkids 2009-2019

Orgelkids was celebrating its 10-year anniversary in 2019. But what is a party without music? That is why we've organized the Orgelkids Composition Contest. The goal is to collect and publish a collection of music suitable for the Orgelkids Do-organ (organ kit).

Because the Do-organ has a keyboard with only two octaves, its repertoire is limited. Therefore there is a need for special new compositions that fit on this organ. Appropriate arrangements of classic pieces are also needed. Fortunately, a lot of composers from all over the world have risen to the challenge to compose 48 new pieces specifically for the Do-organ. Now, on the occasion of our 10-year anniversary, Orgelkids is excited to publish the works for use in Orgelkids projects all over the world. Enjoy the music!

The instrument

The Do-organ has a keyboard with 2 octaves: c'd'-c''' (without cis'). Pitch a' = 440 Hz. The organ has two stops of wooden pipes: open (4') and covered (8'). The organ is winded by hand-operated bellows.

Three categories

Composers were invited to submit compositions in the following three categories:

1. Do-organ solo: simple works suitable for beginning players;
2. Do-organ as an ensemble instrument (e.g. in duet with large organ or ensemble with other instruments);
3. Classics on the Do-organ: adaptations of existing well-known melodies or (classical) compositions.

Jury

The international professional jury has been formed by cooperation with the various Orgelkids projects in the world: each country provides a juror. Our great thanks to our panel of international jurors: Wim van der Ros (chair) – Netherlands, Bart Wuilmus – Belgium, Jean-Willy Kunz – Canada, Annegret Schönbeck – Germany, Fredrik Hagstedt – Sweden, Chwen-Huei Tsai and Chih Chieh Lin – Taiwan, Damin Spritzer – USA.

Prizes for the winning compositions were made possible with a generous gift from Orgelkids, the Roger L. Danielson Soli Deo Gloria Fund and the Dutch Cultuurfonds.
